- CMAA Cost Management Guidelines
- CMAA Quality Management Guidelines
- CMAA Time Management Guidelines
- CMAA Sustainability Guidelines
- A-Series and CM At-Risk Contract Document samples
- CII Publication IR166-3: Best Practices

CMAA provides professional development credit for those who complete The Professional Construction Management Course™. In order to meet the varied formats for reporting mandated education requirements to licensing boards, credits are identified as Professional Development Hours (PDH) and Learning Units (LU). CMAA is registered with the American Institute of Architects (AIA) and the National Council of Examiners for Engineering and Surveying (NCEES) as an approved provider. Course participants earn 24 PDHs. LUs are available for registered architects. All AIA reports and NCEES transcripts can be accessed electronically by the participant. Partial credit is not assigned. All three days of the course must be completed to receive credit.

“ Industry wide, CMAA’s Professional CM Course is a great program for all CMs, but especially for those pursuing the CCM. The value of this course and the CCM certification for VDOT means we have managers in place that understand both the theory behind the work, and the practical experience to perform the work they are managing daily.

Bill Collins, CCM, Virginia Department of Transportation

“ Gannett Fleming’s experience with the CMAA training course was truly enlightening. We had staff members from a variety of construction projects including highway and bridge transportation, water and waste water management, transit facilities, and educational facilities. The information presented by the instructors related to all types of construction, to include all experience levels and backgrounds. A truly satisfying experience that I would highly encourage others to attend.

Raymond Deering, Gannett Fleming

“ Very interesting and captivating program. I enjoyed this three day seminar. I feel like I learned a great deal more than I expected and would like to pursue a CCM certification.

Thistleton Robertson, New York City Department of Environmental Protection
